- **Frontend:** HTML5, CSS3, Tailwind CSS, Bootstrap, React.js
- **Backend:** Django, Flask, Django REST Framework, Wagtail CMS
- **Databases:** PostgreSQL, MySQL
- **Tools & Platforms:** Git, GitHub, VS Code, Vercel, Render, Cloudinary
- **Core Concepts:** Object-Oriented Programming (OOP), File Handling, Exception Handling, REST APIs

Work History

Python Development Intern

NovaNector Services Pvt. Ltd. | Chandigarh, India

- Strengthened Python programming and analytical problem-solving skills by completing practical development assignments during the internship.

- Applied Object-Oriented Programming (OOP), functions, file handling, and exception handling to design and develop Python applications.
- Produced clean, readable, and maintainable Python code by following programming best practices and debugging techniques.
- Built hands-on experience in Python application development while gaining a solid understanding of database concepts and software development fundamentals.

Projects

World Thread – Full Stack Blogging Platform

Live: <https://blog-platform-nzzv.onrender.com>

GitHub: <https://github.com/mrritiksharma0299/Blog-Platform>

Tech Stack: Django, Django REST Framework, PostgreSQL, HTML, CSS, JavaScript, Git

- Engineered full-stack blogging platform using Django and PostgreSQL.
- Executed user authentication, communities, followers, likes, comments, private blogs, and search functionality.
- Designed a responsive user interface and integrated database-driven content management.
- Deployed the application on Render and managed source code using Git and GitHub.
- Built a production-ready blogging platform that enables users to create, manage, and interact with content through a secure and responsive web application.

Prince Homestay Website – Frontend Business Website

Live: <https://prince-homestay-sarkidhar.vercel.app/>

GitHub: <https://github.com/mrritiksharma0299/prince-homestay>

Tech Stack: React.js, Vite, Tailwind CSS, React Router, JavaScript

- Designed and built a responsive tourism website for a homestay using React.js and Tailwind CSS.
- Applied SEO optimization using React Helmet Async, reusable components, and React Router.

- Integrated Google Maps, WhatsApp booking, image gallery, and nearby attractions pages.
- Optimized images and website performance to improve loading speed on mobile and desktop devices.
- Created an SEO-friendly and responsive business website that helps promote the homestay, showcase its facilities, and simplify direct customer inquiries.

NovaStore – Full Stack E-commerce Web Application

Live: <https://novastore-6a1r.onrender.com/>

GitHub: <https://github.com/mrritiksharma0299/NovaStore>

Tech Stack: React.js, Django, Django REST Framework, PostgreSQL, Tailwind CSS, JWT Authentication, Vite

- Developed a full-stack e-commerce web application using React.js for the frontend and Django REST Framework for the backend.
- Implemented secure JWT authentication with user registration, login, protected APIs, and profile management.
- Built product listing, product details, search, category filtering, and a responsive shopping cart to enhance the shopping experience.
- Designed RESTful APIs with PostgreSQL database integration and optimized the application for responsive performance across desktop and mobile devices.
- Deployed the frontend and backend on Render and managed the complete project using Git and GitHub.

Movies World – Flask REST API Web Application

Live: <https://movies-world-mfaz.onrender.com>

GitHub: <https://github.com/mrritiksharma0299/movies-world>

Tech Stack: Flask, Python, HTML, CSS, IMDb API

- Built a movie search web application using Flask and the IMDb API.
- Displayed real-time movie information including posters, ratings, cast, release year, and plot.

- Enforced API integration, dynamic rendering, and responsive user interface.
- Deployed the application on Render and maintained the project using GitHub.
- Developed a user-friendly movie search application that provides real-time movie information through IMDb API integration.

Education

Bachelor of Science (B.Sc.) in Web Designing and Graphics, 07/2023- 06/2026

Chandigarh Group of College -Landran
